PROFESSIONAL SUMMARY

Data Analyst with hands-on experience transforming raw datasets into actionable insights through SQL, Python, Excel, and Power BI. Experienced in data cleaning, exploratory analysis, dashboard development, and business performance reporting using datasets of 10,000–50,000+ records across e-commerce, real estate, and customer analytics. Strong ability to translate data into clear business insights that support operational and marketing decisions. Seeking a Junior Data Analyst role to drive data-informed decision making.

TECHNICAL SKILLS

Data Analysis: Python (Pandas, NumPy), R, SQL (MySQL, PostgreSQL — CTEs, Window Functions, Stored Procedures)

Data Visualization: Power BI (DAX, Interactive Dashboards), Tableau, Matplotlib, Seaborn

Analytics Tools: Advanced Excel (PivotTables, Power Query, Macros, VBA)

Data Handling: Data Cleaning, Exploratory Data Analysis (EDA), ETL Pipelines, Data Modeling

Tools & Platforms: Git / GitHub, Jupyter Notebooks, BeautifulSoup (Web Scraping), Google Analytics

PROJECTS

GTA Housing Market Analysis & Price Insights *Python • SQL • Data Visualization*

- Collected and cleaned 50,000+ property listings through web scraping and preprocessing pipelines.
- Performed exploratory data analysis to identify pricing patterns, neighborhood trends, and key market drivers.
- Built visual reports highlighting undervalued neighborhoods with estimated 15%+ ROI potential.
- Presented findings through clear visualizations and summary insights designed for real estate investment decisions.

Customer Segmentation Analysis (RFM Model) *Python • SQL • Data Visualization*

- Analyzed 8,000+ customer transaction records using RFM (Recency, Frequency, Monetary) analysis.
- Applied clustering techniques to identify high-value customer groups contributing 35% of total revenue.
- Developed visual reports and segmentation insights to support targeted marketing strategies.

Telecom Customer Churn Analysis *Python • SQL • Data Analysis*

- Analyzed 10,000+ telecom customer records to identify behavioral patterns linked to churn.
- Performed feature analysis and data exploration to highlight key risk indicators for customer attrition.
- Presented results as a risk-tier segmentation framework to support customer retention strategies.

Sales Performance Dashboard *Power BI • DAX*

- Designed an interactive Power BI dashboard tracking revenue, product performance, and conversion metrics.
- Built DAX measures to enable year-over-year comparisons and dynamic filtering.
- Enabled stakeholders to explore KPIs through self-service dashboard tools.

Retail & Train Booking Database Analytics *MySQL • PostgreSQL*

- Designed normalized relational database schemas for booking and retail analytics systems.
- Wrote complex SQL queries including JOINS, window functions, triggers, and stored procedures.
- Analyzed booking and purchase trends to identify peak demand periods and operational insights.

PROFESSIONAL EXPERIENCE

Ecommerce Data Analyst | Canadian Outlet Store • Toronto, ON *Apr 2024 – Jul 2024*

- Analyzed 10,000+ weekly transactions using SQL and Excel to identify top-performing product categories, improving inventory allocation by 10%.
- Automated five weekly KPI reports (traffic, conversion rate, bounce rate) using Excel macros, saving approximately 5 hours of manual work per week.
- Built Python-based ETL pipelines to clean and organize 5,000+ customer records, improving email campaign segmentation accuracy by 20%.
- Designed and analyzed A/B tests for promotional campaigns, with the winning variant achieving a 12% higher click-through rate.

Team Member | Tim Hortons • Toronto, ON *Jul 2025 – Present*

- Reconcile 500+ daily POS transactions with 100% accuracy while maintaining precise financial records.
- Analyze hourly sales patterns to support staffing decisions and operational efficiency.
- Maintain zero-variance cash balancing on \$2,000+ daily drawers, demonstrating strong attention to detail and data accuracy.

EDUCATION

Diploma in Business Administration — Marketing | Seneca Polytechnic, Toronto, ON • April 2025

Relevant Coursework: Database Management, Business Statistics & Analytics, Market Research, CRM
